SIGNATURE STYLIST

In today's world, you don't sell products or services.
You sell yourself.

Why Is Signature Styling Important?

- * A first impression is formed within three seconds based on non-verbal communication
- * Signature Styling sends an intentional message that naturally attracts quality prospects
- * Signature Styling differentiates you in a crowded market, boosting your personal brand

Thea Wood became a professionally trained and certified image consultant because she enjoys helping people rediscover the confidence needed to reach their goals. Her keen knowledge of Signature Styling and enthusiastic stage presence deliver a message that audiences relate to and want to act on immediately.

Two favorite presentation topics:

“How To Create Your 3-Second Pitch”

Impossible? No! You're doing it already, but this presentation teaches you how to develop and control your visual message for desired results.

“Style For The Camera”

With the growing video marketing realm, the camera reigns almighty. Make friends with the lens and learn techniques that you can apply to head shots, video-recorded presentations or special event appearances.

Thea can also create presentations for a style-related topic of your choice.
